

Japanese division and the Imperial guards immediately began crossing. They advanced and occupied the hills back of Kusan, facing the Russian position on the right bank of the river. All through Saturday night, the Japanese, on the right bank of the river, were engaged in a battle with the Russian position. At a late hour Saturday night, Gen. Kuroki telegraphed to the general staff of the army:

"I will attack the enemy on May 1 at dawn."

True to his promise, Gen. Kuroki at daylight today centered all his artillery on the Russian position between Chiu Tien Cheng and Yashoko. To this the Russians made reply with all their batteries.

Battle With Big Guns.

At 7 o'clock in the morning the Russian battery at Yoshoko was silenced, and half an hour later Gen. Kuroki ordered his entire line, stretching for four miles, to attack. The Japanese infantry, on the word of command, charged across the river, wading that stream breast deep, and began storming the heights at fifteen minutes past 8.

By 9 o'clock they had swept the Russian line back across the plateau.

No report has been received in Tokyo concerning the losses sustained by the Japanese in the fighting of today. It is believed that the losses were heavy, particularly during the infantry charge.

The reports of this fighting, which have been received here, do not indicate whether the Russians retired down the river or in the direction of Feng Huan Cheng, on the road to Liao Yang.

RUSSIA DISCREDITS JAPANESE CLAIMS

ST. PETERSBURG, May 2.—The first Japanese army under Gen. Kuroki, consisting of the guards and the second and twelfth divisions, according to official and private advices from the front, crossed the Yalu yesterday about thirty miles above the mouth of the river, near Klun-tien, where the river bends abruptly to the eastward. For three days less than 2000 Russians, under Gen. Sassulitch, Mstchenko and the Russian position on the river and have been harassing and impeding the crossing of the Japanese very successfully, despite their hopeless inferiority in men and guns.

On Friday the Japanese, who had occupied the heights near Tzu-tuen and Khusan, above Antung, were dislodged and driven back to the river with considerable loss. They were compelled to dismantle their pontoon bridge in order to save it from destruction.

Saturday a gunboat flotilla at the mouth of the river and all the field guns posted on the Korean bank opened a bombardment and scattered the Russian position on the Manchurian side. The bombardment was maintained intermittently for seven hours, twenty-four field guns and twelve 4.5 guns participating and over 200 shells being fired.

The Russian reports pay tribute to the fine masked positions of these guns. In two days' fighting the Russians lost two officers and five men killed and six officers and thirty-six men wounded.

Great Losses Admitted.

On the morning of May 1 it became apparent that the bombardment of Saturday was a preliminary to the crossing on Sunday, when the Japanese opened again with their batteries, pouring an intense fire into the Russian lines, which caused great losses.

The Russians had no intention of trying to prevent the Japanese crossing, but as object being to retard and embarrass as much as possible the crossing. With a comparatively insignificant use of same failed to do any good, so I decided to try Dr. Pierce's Golden Medical Discovery, and bought a bottle. After using it a few days, my lungs began to heal, I did not cough nearly as much, slept much better, and in two weeks the cold, cough, catarrh and throat difficulty were all cured. I was certainly pleased with the results, and so wish to write you of it."

"We quote from the New York Journal the following: "In Allen street, in eight blocks of tenement houses, live ten thousand and thirty-seven human beings. "The features of this miserable street are: "Darkness; Dampness; Disease; Death. "The deaths are especially plentiful among the very young children. "Of all the New York streets in which evil conditions destroy child life Allen street is the worst. It has a record for killing children under five years of age. "The street is very narrow, and the second avenue elevated railroad running through it, filling it from house to house, roofs it in, making of it a dark, gloomy tunnel. "On the ground it is dark all day, the lamps are always lighted. "Diseases of the eye, pneumonia, tuberculosis, the rickets and other troubles of ill-nourished children, are features of this street. "Among the dirt, the din, the darkness, the dampness of this infernal death tunnel, children are supposed to 'play.' "Do you wonder that they are deformed and sickly? Do you wonder that they die before they reach the age of five. "As well try to grow a flower in a cellar as to bring up children in that horrid street to which poverty and the city's culpable neglect condemn so many families."

"The Spanish embassy communicated with the authorities concerning the missing casket, and the police have now traced the theft to a society woman who visited the Duchess during her last illness. "The jewels have been recovered and it is probable that the family of the Duchess will refuse to prosecute the accused."

Utahns at Boston. Special to The Tribune. BOSTON, Mass., May 1.—G. Marshall of Provo is at the Crawford; J. L. Reynolds, L. L. Berstead, O. N. Jones and J. F. Thomast of Salt Lake are at the Cecil.

Special to The Tribune. BOISE, Ida., May 1.—A party of railroad officials arrived this evening from the West on a special train, and will remain until 11 o'clock tomorrow, when they will leave for Salt Lake. Among those in the party are J. C. Stubbs, traffic director of the Hartman line; E. O. McCormick, assistant director of the Oregon Short Line; A. L. Craig, general passenger agent of the O. R. & N., and E. C. Manson, superintendent of the Idaho division of the Oregon Short Line.

No special significance, they say, attaches to their visit here. It is merely a part of their tour of inspection under the escort of the well-known Oregon Short Line and O. R. & N. officials.

The above dispatch gives rise to speculation as to whether Mr. Burley is among those who are destined for promotion. No mention is made of T. M. Schumacher, traffic manager of the Oregon Short Line, being with the party, although he left Salt Lake last week to meet Mr. Stubbs. As Messrs. Stubbs and McCormick will arrive here today it is most likely that announcements will soon be made of changes in the traffic department.

WORLD'S FAIR EXCURSIONS Via Denver & Rio Grande, To St. Louis and Return, \$42.50. Transit limit, 10 days each direction. Final limit, 60 days from date of sale. Stop-overs allowed. Pullman and tourist sleepers through to St. Louis with out change. Choice of routes. See any D. & R. G. agent.

TEN-MILLION-DOLLAR MINING DEAL CLOSED MONTEREY, Mex., May 1.—One of the largest mining deals that has ever been consummated in the republic was the taking of the Velordena Mining and Smelting company's property by the Guggenheim Exploration company. The deal was closed on a valuation basis of \$10,000,000, the Guggenheim Exploration company acquiring a 60 per cent interest in all the company's holdings, paying \$2,000,000 in cash and guaranteeing to expend \$1,000,000 more in improvements and developments. The other 40 per cent is held by the Velordena, in which F. W. Nash, Matthew Dabieren, Charles Wilhelm and the estate of James M. Matthews are stockholders. The mining claims comprise about 600 acres.

SOUTHERN CALIFORNIA VISITED BY HEAVY GALE LOS ANGELES, Cal., May 1.—Southern California was visited by a southwest gale that did considerable damage at several seaside towns. At times the wind attained a velocity of forty miles an hour and became a serious menace to shipping in the various harbors. The wind is still blowing a gale, and it is feared there will be reports of loss of crafts.

At Ocean Park, a small pleasure launch valued at \$500 went to the bottom. The vessel was very high tonight, in this city the wind blew a gale all day, carrying dust and all sorts of small debris through the air.

Boston Bakers Go on Strike

BOSTON, May 1.—A strike of more than 1400 bakers in this city, Cambridge and Chelsea, went into effect tonight. Every bakery in the three cities is affected with the exception of the Hebrew bakeries.

The daily output of bread in Boston is from 30,000 to 35,000 loaves, and this supply is usually sufficient for the city. The bakers tonight the employers were making an attempt to keep their shops in operation, but admitted that the output was very small.

The large hotels and restaurants will not be affected, as the employees of these places are not bakers, and the proprietors are members of the Employers' and Waiters' union and will not be called out.

The proprietors of the bakeries banded together in the Master Bakers' association have refused absolutely to grant the demands of the men and have declared that in the future they will operate "open shops."

The demands were embodied in a new working agreement, which provides for an increase of wages, union shops and the use of the union label on every loaf of bread.

Strikes were also ordered today in the districts centering in Lynn, Salem and Brockton. It was announced by the union tonight that during the day about forty firms, employing 45 men, had signed a new agreement and that tomorrow their bakeries would be in operation.

A statement was issued by the Master Bakers' association in which it is charged that the employees broke faith in declaring a strike while negotiations for a settlement of the troubles were pending.

Carriage Workers to Go Out. NEW YORK, May 1.—Between 500 and 600 carriage and wagon-workers belonging to the Carriage and Wagon Workers' union today decided to go on strike in New York and vicinity unless a new contract submitted to the employers last week embracing a strike was signed tomorrow morning.

Two Strikes in Chicago. CHICAGO, May 1.—Two first of May strikes were ordered today, one involving less than 1000 bakers, arrayed chiefly against the nine large bakeries in Chicago. The other strike was ordered by the Picture Frame Workers' union against the six principal picture molding concerns in the city. Not more than 50 workers are affected by the latter strike.

Strike of Building Trades Union. OIL CITY, Pa., May 1.—The effect of a resolution of the Builders and Contractors' association of northwestern Pennsylvania and western New York to have "open shops" beginning May 1 will be that the men employed in the building trade in the section covered by the association will strike tomorrow.

Thousand Union Carpenters Out. YOUNGSTOWN, O., May 1.—One thousand union carpenters in Youngstown and the Mahoning valley are out on strike by reason of the Builders and Contractors' association refusing to sign a scale for the coming year, making the minimum wage \$3 per day, an advance of 25 cents.

Found a Cure for Indigestion. I use Chamberlain's Stomach and Liver Tablets for indigestion and find that they suit my case better than any dyspepsia remedy I have ever tried and I have used many different remedies. I am nearly fifty-one years of age and have suffered a great deal from indigestion. I can eat almost anything I want to now.—George W. Emory, Rock Mills, Ala. For sale by all leading druggists.

STUBBS AND BURLEY EN ROUTE TO SALT LAKE Special to The Tribune. BOISE, Ida., May 1.—A party of railroad officials arrived this evening from the West on a special train, and will remain until 11 o'clock tomorrow, when they will leave for Salt Lake. Among those in the party are J. C. Stubbs, traffic director of the Hartman line; E. O. McCormick, assistant director of the Oregon Short Line; A. L. Craig, general passenger agent of the O. Debs Will Lead Socialist Ticket

CHICAGO, May 1.—The Socialist National convention which will nominate candidates for President and Vice-President and frame a National platform, met today. The convention consists of 230 delegates, every State in the Union being represented with the exception of Arizona.

No other business of importance was transacted. The nomination of Eugene V. Debs for President and Benjamin Hanford of New York for Vice-President by the convention seems already assured.

The delegates were entertained tonight at a banquet at which Debs was the principal speaker. His address was purely along Socialist lines, the trusts and both the Republican and Democratic parties being bitterly scored by the speaker.

PRINCELY GIFT HAS BEEN DECLINED Special to The Tribune. CHICAGO, May 1.—Because the donor was a theater-goer and lost his life in the Iroquois fire, the Methodist Foreign Missionary board has declined to accept the bequest of W. W. Cooper, amounting to \$30,000.

Mr. Cooper was an enthusiastic member of the church and was interested in its missionary efforts. Notification that the gift was refused has reached the county clerk at Kenosha. In his letter to the court A. B. Leonard, secretary of the board, stated that the action for the action more than to state that it was the unanimous decision of the church body.

The refusal has caused a great sensation in Methodist circles in the Wisconsin town. Mr. Cooper was a leader of the liberal party in the Kenosha church, and certain leaders in missionary work were inclined from the first to oppose the acceptance of the gift under the circumstances.

Judge Slosson of the county court at Kenosha says the returned legacy probably would be distributed between the widow, Mrs. Annie Cooper, and the daughter, Mrs. May Cooper-Beechell, both of Chicago.

SOCIETY WOMAN STOLE JEWEL CASKET PARIS, May 2.—After the death of the Duchess d'Albe at the Hotel Bristol last March, it was found a casket containing jewels valued at \$20,000 was missing. The lost jewels included a diamond earring, the wedding gift of Emperor Napoleon III, to the Empress Eugenie, which later was presented by the Empress to her niece.

The Spanish embassy communicated with the authorities concerning the missing casket, and the police have now traced the theft to a society woman who visited the Duchess during her last illness. The jewels have been recovered and it is probable that the family of the Duchess will refuse to prosecute the accused.

CLOSE TO NATURE

WHY SUNSHINE BRINGS HEALTH.

EVERYONE knows that the pure country air and a chance to get close to Nature in the fields and woods, is sure to improve our animal spirits and bodily health. We are only civilized animals after all, and the present dwellers in the cities are compelled to live in badly ventilated rooms or factories filled with the germs of disease—of grip, consumption or catarrh. They are compelled to eat their lunch hastily, and, in fact, to run the human machine at all times so improperly that they are constantly in danger of being sick. Sunshine and good air are essential for good health. Nature provides the germ destroyer, if we only find it, in a life in the open air and sunshine. If we are run down physically, if our blood has too many of the white blood corpuscles and not enough of the red corpuscles, if we look pale and anemic, or with pimples or blemishes on the skin, it's a pretty sure warning that we need a little of nature's cure. For those who are confined indoors and need a strengthening tonic, a blood and body builder, there is a remedy provided by Nature which is sure and safe—an Alternative Extract from roots and herbs, without the use of alcohol, which nourishes the tissues and nerves with good red blood. That medicine was the discovery of Dr. R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. It was sold by druggists thirty-seven years ago or more and has become more popular every year since, under the name of Dr. Pierce's Golden Medical Discovery. Dr. Pierce receives quantities of grateful letters and testimonials every day. It would take all of this newspaper's space to print those received in a single month. Here is a sample:

"About seven years ago my health failed, and I tried different doctors but they could not help me," writes Reuben S. Kleppinger, Esq., of Lehigh, Pa. (Box 673). "I was still getting worse. Had a cough, pain in chest, night-sweats, was weak and nervous. I decided to write to Dr. R. V. Pierce, of Buffalo, N. Y., and state my case. I received a prompt and careful reply, which I still have in my possession. The malady was a complicated one, involving the nasal and other air-passages. There was a catarrhal condition extending from head to the bronchia and lungs. The use of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy was advised. I used about two dozen bottles of each, also some of Dr. Pierce's Pleasant Pellets, and these remedies have done their work. Since that time I don't believe I have lost a day's work on account of sickness. Am well and have been able to eat anything ever since. Thanks seem but a slight return for all the good your medicine has done me."

"About two years ago I consulted a physician to try and get relief from a cold which had stopped up my head, and also settled on my lungs, causing catarrh in a very bad form, and also throat difficulties," writes Justice Thomas E. Bourquin, 1508 Ogden Road, Savannah, Ga. "He gave me some medicine, but one month's faithful use of same failed to do me any good, so I decided to try Dr. Pierce's Golden Medical Discovery, and bought a bottle. After using it a few days, my lungs began to heal, I did not cough nearly as much, slept much better, and in two weeks the cold, cough, catarrh and throat difficulty were all cured. I was certainly pleased with the results, and so wish to write you of it."

"We quote from the New York Journal the following: "In Allen street, in eight blocks of tenement houses, live ten thousand and thirty-seven human beings. "The features of this miserable street are: "Darkness; Dampness; Disease; Death. "The deaths are especially plentiful among the very young children. "Of all the New York streets in which evil conditions destroy child life Allen street is the worst. It has a record for killing children under five years of age. "The street is very narrow, and the second avenue elevated railroad running through it, filling it from house to house, roofs it in, making of it a dark, gloomy tunnel. "On the ground it is dark all day, the lamps are always lighted. "Diseases of the eye, pneumonia, tuberculosis, the rickets and other troubles of ill-nourished children, are features of this street. "Among the dirt, the din, the darkness, the dampness of this infernal death tunnel, children are supposed to 'play.' "Do you wonder that they are deformed and sickly? Do you wonder that they die before they reach the age of five. "As well try to grow a flower in a cellar as to bring up children in that horrid street to which poverty and the city's culpable neglect condemn so many families."

that they die before they reach the age of five. "As well try to grow a flower in a cellar as to bring up children in that horrid street to which poverty and the city's culpable neglect condemn so many families."
